REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: After entry of the afterfinal amendment filed March 8, 2006, the claimed invention is now drawn to a fluorescent nucleotide which is linked to a fluorescent dye which cannot have either a sulfonic acid or phosphoric acid group but which must have a sulfonamide group. The prior art of Frame no longer applies because of the absence of the "derivative thereof" language regarding the nucleotide so that the fluorescent dye is absent from Frame. The Brush reference no longer applies in view of the requirement for the sulfonamide group in the fluorescent dye. Finally, the Caputo patent was considered for interference, but no claim construction which would meet the two way test based upon the actual pending claims in the current application and the issued claims in Caputo could be found. Therefore, the claimed invention is novel and unobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Fredman whose telephone number is (571)272-0742. The examiner can normally be reached on 6:30-3:00.
